

# QBOT® Compatibilities

www.myQBOT.com

QBOT requires a stitch-regulated sewing machine and a free-standing quilt frame. Stitch regulation can be built-in (long-arms) or added separately (mid-arm sewing machines must have a Quilter's Cruise Control®). Certain machines/frames require V3, firmware version 3. Please note: We are always updating QBOT's compatibilities, please contact us to inquire.

## **MACHINES, long-arm:**
